IT Support and Customer Operations Professional | Networking, Systems and Business Automation

Chico, CA | (720) 390-8088 | andrewrblakewilkins@gmail.com

[linkedin.com/in/wilkins-andrew](https://www.linkedin.com/in/wilkins-andrew) | [GitHub Portfolio](#) | [Salesforce Portfolio](#)

PROFESSIONAL SUMMARY

IT and customer operations professional with 10+ years of experience spanning technical support, B2B and B2C sales, and small business ownership, combined with three independent technical projects in network infrastructure, Linux systems administration, and Salesforce automation. Pursuing a B.S. in Information Technology (Full Sail, expected 2027). Comfortable learning new systems and software independently, with a consistent record of clear documentation, first-contact resolution, and process improvement. Bringing both hands-on technical capability and a versatile, customer-facing background to entry-level IT support, Salesforce administration, or customer operations roles.

TECHNICAL SKILLS

Infrastructure & Networking: Windows Server 2025, Domain Controller Setup, RAID 5, LAN Design, Firewall Deployment (SonicWall)

Linux & Systems Administration: Debian Linux, OpenMediaVault (OMV), Samba/SMB Configuration, POSIX Permissions, rsync, S.M.A.R.T. Disk Monitoring

Salesforce & Business Systems: Flow Builder (Record-Triggered Automation), Custom Object and Data Modeling, Reports and Dashboards

Customer Support & Operations: Multi-Channel Support, CRM Systems, Ticket and Case Documentation, First-Contact Resolution, Escalation Routing

Professional: Technical Writing and SOP Authoring, Process Standardization, Cross-Functional Collaboration

Additional Lab Experience: Network Load Balancing (NLB), OpenSSH, Virtualization (VMware/VirtualBox), Database Scripting, gained through academic coursework

TECHNICAL PROJECTS

Home Lab NAS and Automated Backup Server, Personal Project

2026

- Architected and deployed a home lab NAS and backup server on Debian Linux with OpenMediaVault, independently learning the platform from scratch.
- Managed two 4TB EXT4 storage volumes mounted by immutable UUID, with cross-platform SMB sharing including the vfs_fruit module for native Apple Time Machine backups.
- Migrated 1.1TB of data via rsync in detached screen sessions and configured S.M.A.R.T. disk telemetry for proactive hardware monitoring.

Full LAN Design and Deployment, Marconi Law Firm (Simulated Client)

June 2025 - Present

Full Sail University, Academic Capstone Project

- Designed and deployed a full LAN for a simulated 10-user office, configuring a Windows Server 2025 domain controller with RAID 5 and a SonicWall firewall with role-based access controls.
- Conducted a full infrastructure audit prior to go-live, achieving 100% uptime during the simulated migration.

Salesforce CSM Onboarding and Command Center Solution, Personal Project

2026

- Built a custom Salesforce data model with a Record-Triggered Flow that automatically provisions onboarding records when a deal closes, removing a manual handoff step.
- Developed custom reports and an executive dashboard for real-time visibility into onboarding volume and milestone completion.

PROFESSIONAL EXPERIENCE

Delivery and Logistics Specialist

January 2024 - April 2026

Jet Delivery / SDK Logistics, Orland, CA

- Resolved 10-15 customer service issues daily by phone, maintaining a 98% on-time performance record.
- Used GPS and logistics software to troubleshoot and optimize routes in real time, mitigating delivery delays by 15%.
- Standardized a vehicle pre-trip inspection checklist, reducing vehicle downtime by 10% through proactive process documentation.

Freelance Photographer

January 2023 - November 2023

The Valley Mirror, Willows, CA

- Covered local news, community events, and features on assignment for a local newspaper, managing shoot deadlines independently.
- Delivered edited, publication-ready images under tight editorial turnaround, coordinating directly with editors on coverage needs.

Inside Sales Representative

February 2021 - November 2022

Ferguson Home (formerly Build.com), Chico, CA

- Oversaw a portfolio of 30+ active B2B accounts, increasing repeat order frequency by 15% year-over-year.
- Managed 40+ daily inbound and outbound inquiries, accurately processing \$15k-\$20k in weekly orders using CRM systems.
- Built a personal knowledge base for complex product inquiries, reducing manager escalations and customer wait times by 15%.

Customer Support Representative

December 2020 - February 2021

United Health Care, Chico, CA

- Served as first point of contact for member inquiries on coverage, claims, and benefits, targeting first-call resolution.
- Authored a Quick-Reference troubleshooting guide adopted for new-hire onboarding.
- Maintained strict HIPAA compliance while handling sensitive member information, with zero compliance incidents.
